

Every Christmas

K. Toqe (12.2.07-12.9.07)

I can hear the bells ringin' in Christmas
As I'm walkin' down this busy street, I'm
Thinkin' of Bethlehem how it all started
Think I'll find myself an empty seat by

A street lamp shining like the star had
When the shepherds found the Baby King, they
Were led by the star, those shepherds journeyed so far away...to see His face

They came for joy, and they came for peace
And left rejoicing and their story's got hope for me...Every Christmas

As I sat below one of those street lamps
I could hear the Spirit whispering to
Remember Bethlehem how it all started
Remember Jesus came to set you free and

The street lamp shining through your darkness
Is like the star your Father made, so you can
You can leave your past; still travel fast when you're far away...to see His face

So I'll come for joy, and I'll come for peace
And leave rejoicing 'cause I know He's got hope for me
I'll come for joy, and I'll come for peace
And leave rejoicing 'cause I know He's got hope for me...Every Christmas

So I'm done with my past, and I'm never goin' back
On this Christmas
'Cause my Father above, He's got love for me
Every Christmas

You can come for joy, and you come for peace
And leave rejoicing 'cause this story's got hope for you and me
We can come for joy, and come for peace
And leave rejoicing 'cause I know He's got hope for you and me...
Every Christmas
